About Dr. Larry G. Troxell

Dr. Larry G. Troxell, DHA, MBA, is the **Chief Executive Officer of Global CellTherapy LLC.** (Comanche, Texas). A retired health system administrator (1978–2025; retired September 2025), Dr. Troxell is a veteran leader in rural hospital revitalization and value-based care design. He previously served as CEO of Comanche County Medical Center and the CCMC Health System and led the Texas Outpatient & Infusion Centers.

As a **Research Scientist (2021–ongoing)**, Dr. Troxell focuses on **retrospective intervention outcomes**, supporting evidence-based deployment of Physiologic Insulin Resensitization (PIR) to improve metabolic health and reduce total cost of care, particularly for veterans and underserved communities. He holds a BS and MBA from Oklahoma City University and a Doctor of Health Administration from the Medical University of South Carolina. Dr. Troxell is a U.S. Army veteran (101st Airborne Division).
